

MATTHEW A. LAZZARA

CURRICULUM VITAE

Education:

Ph.D. Atmospheric and Oceanic Science, University of Wisconsin-Madison, Madison, WI **May 2008**

 Ph.D. Minor in Curriculum and Instruction (Science)

Thesis: A Diagnostic Study of Antarctic Fog

Advisor: Professor Steven A. Ackerman

M.S. Atmospheric Sciences, University of Wisconsin-Madison, Madison, WI **August 1997**

Thesis: Atmospheric Predictability during TOGA COARE

Advisor: Professor John A. Young

B.S. Meteorology, Lyndon State College, Lyndonville, VT **May 1991**

 Minor in Mathematics and Physics (Now Vermont State University – Lyndon)

Thesis: Chaos and Atmospheric Predictability

Advisors: Professors Bruce Berryman and Barry Richwien

Professional Experience:

Full-time Faculty

2014-Present

Madison Area Technical College, School of Science, Technology, Engineering, and Mathematics, Department of Physical Sciences.

Teaching and developing courses in weather and climate science including Weather and Climate; Weather and Climate Laboratory; Climate and Climate Change; Aviation Meteorology; Honors Meteorology; and Independent Studies in Meteorology. Department Chair for Physical Sciences since 2018. Member of Information Technology Council 2015-2018. Principal Investigator of the Polar Climate and Weather Station Project and Antarctic Meteorological Research and Data Center. Participate in College initiatives including unit planning, focus-on-focus, diversity/equity/inclusion efforts, etc.

Senior Scientist (part time)

2014-Present

University of Wisconsin-Madison, Space Science and Engineering Center, Antarctic Meteorological Research and Data Center

Principal investigator of the US Antarctic Automatic Weather Station (AWS) program, and several other Antarctic and Arctic meteorology projects. Managing and directing a staff of up to five members with several undergraduate and graduate students as a part of the projects. Collaborate with scientists globally. Participating on cooperative projects, peer reviewed published papers, and science conferences. Deployed to Antarctica as a part of the AWS project. Conduct educational outreach activities.

Part-time Adjunct Faculty	2004-2014
Madison Area Technical College, School of Arts and Science, Department of Physical Sciences.	
Taught the Weather and Climate course to undergraduate students. Aided in the development of the Climate and Climate Change course.	
Research Meteorologist	1995-2014
University of Wisconsin-Madison, Space Science and Engineering Center, Antarctic Meteorological Research Center	
Support and maintain the generation, archiving and distribution of Antarctic meteorological data, including the Antarctic satellite composite in McIDAS. Also aid in the processing of University of Wisconsin-Madison Automatic Weather Station data. Deployed and worked on site at McMurdo Station, Antarctica seven times, and once at South Pole Station, Antarctica. Conduct educational outreach activities with schools and public organizations.	
Testing and Training Meteorologist	1991-1999
University of Wisconsin-Madison, Space Science and Engineering Center, McIDAS Group	
Provided user support, conducted software testing, and was a trainer/demonstrator on McIDAS. Conducted training sessions and site visits to Australian Bureau of Meteorology, Boeing/Kent Defense Space Center, Cape Canaveral Forecast Facility/Range Operations Control Center (NASA), Johnson Space Center/Space Flight Meteorology Group (NASA), National Centers for Environmental Prediction/World Weather Building (NOAA), University Corporation for Atmospheric Research/Unidata, and National Transportation Safety Board.	
Weather Data Organizer	1990-1991
Lyndon State College, Electronic Weather Bulletin Board Project	
Uploaded weather data for a grant from the Vermont Department of Education for elementary school students' use.	
Weather Intern	1990
WLNE Channel 6, Providence, RI	
Assisted the Chief Meteorologist, prepared forecasts, prepared marine forecasts, and utilized a Doppler weather radar.	
On Air Meteorologist, PSA Director and Assistant General Manager	1989-1990
Lyndon State College, WWLR-FM	
Prepared and gave weather forecasts for the Lyndonville and St. Johnsbury Vermont area. Also managed the stations public service announcements (PSA) and aided with management of the station.	

Assistant Meteorology Lab Supervisor **1987-1989**

Lyndon State College, Meteorology Department

Coordinated with Lab Monitor in the care and upkeep of the meteorology lab including the posting of DiFAX charts, alphanumeric products, monitoring McIDAS weather display systems, etc.

Substitute Science Teacher **1987-1995**

King Philip Regional High School, Wrentham, MA

Substitute taught Environmental Sciences, Earth Science and Chemistry classes, and often taught specific course content.

Membership:

- American Geophysical Union (AGU)
- American Meteorological Society (AMS)
 - Graduate student member of the AMS Board of Higher Education 2004-2007
 - Faculty member of the AMS Board of Higher Education 2023-present
 - Member of the Working Group on 2-Year Colleges 2023-present
- Mount Washington Observatory (MWO)
- Scientific Committee on Antarctic Research (SCAR)
 - Expert Group on Operational Meteorology in the Antarctic
- International Association of Meteorology and Atmospheric Sciences (IAMAS) - International Commission on Polar Meteorology (ICPM), 2007-present
 - Secretary of ICPM 2011-2019
 - President of ICPM 2019-present
- Antarctic Advisory Group (AntAG), Executive Council Panel on Polar and High Mountain Observations, Research, and Services (EC-PHORS), World Meteorological Organization (WMO)
- Working Group for Observational Data (WG/OD) (both satellite and conventional data) as a part of the Interagency Council for the Advancement of Meteorological Services (ICAMS) as a part of the Office of Science and Technology Policy (OSTP).

Research Grants:

National Science Foundation:

- McMurdo Ground Station Science Workshop (2003-2006)
- Antarctic Automatic Weather Station Program (2007-2010)
- Arctic Satellite Composite Project (2007-2010)
- Antarctic Meteorological Research Center (2006-2009)
- Collaborative Research: Antarctic Meteorological Research Center (2006-2009)
- Collaborative Research: Antarctic Automatic Weather Station Program: 2007-2010
- Arctic Satellite Composite Project
- Antarctic Meteorological Research Center (2009-2011)
- Collaborative Research: Antarctic Automatic Weather Station Program
- Collaborative Research: Augmenting the Ross Island-area automatic weather station network to develop a tropospheric ozone climatology

- Antarctic Meteorological Research Center
- Collaborative Research: Synoptic and mesoscale storms in the Southern Ocean and their impact on the cryosphere (2013-2016)
- Collaborative Research: Antarctic Automatic Weather Station Program (2013-2017)
- Sensitivity of Southern Hemispheric Atmospheric Structures to Tropical Forcing
- Antarctic Meteorological Cyberinfrastructure Sustainability
- Collaborative Research: Optimized Deployment of Antarctic Surface Weather Observations
- Collaborative Research: Antarctic Automatic Weather Station Program (2016-2019)
- Collaborative Research: Observing the Atmospheric Boundary over the West Antarctic Ice Sheet
- MRI: Development of a Modern Polar Climate and Weather Automated Observing System (MATC)
- Collaborative Research: Antarctic Automatic Weather Station Program (2019-2022)
- Collaborative Research: Antarctic Meteorological Research and Data Center (MATC)
- Collaborative Research: The Automatic Weather Station Program: Antarctic Meteorological Sentinel Service (2024-2027)

SPAWAR System Center Charleston - Department of the Navy (now called NIWC):

- Satellite Analyses for the Antarctic Aviation Technical Services Operations (2002)
- Satellite Analyses for Antarctic Aviation Technical Services Operations (Update) (2004)
- Satellite Derived Fog Forecasting Applications (2006)
- Antarctic Meteorological Research Center Task List (2012-2014)
- AWS Forecasting and QC Project (2021-2023)

National Climatic Data Center (now called National Center for Environmental Information):

- Amundsen-Scott South Pole Station CLIMAT Message Project (2005-2009)

National Oceanic and Atmospheric Administration:

- Blended Arctic Composites/Arctic Composite Satellite Imagery
- Assimilation and forecast impact of high temporal resolution Leo/Geo AMVs in the high-latitude data-gap corridor
- Product Systems Development and Implementation (PSDI) for 2020: Arctic Composites: Addition of S-NPP, JPSS, and MetOp-C
- MTG-I large dataset performance for Arctic Composite Imagery

National Aeronautical and Space Administration (via University of Colorado-Boulder):

- Ultra-Low Temperature Weather and Environmental Station (2014-2015)

Scientific Committee on Antarctic Research:

- AMRDC AntClimNow Data Stewardship and Coordination (MATC)
- SCAR Travel Award (MATC)

Unidata Program Center, University Corporation for Atmospheric Research:

- Meteorological Interactive Processing Project (MATC)

Awards and Honors:

Antarctic Service Medal – Awarded in 1999 by Dr. Rita Colwell, Director of the National Science Foundation. Awarded to deploying members of US Antarctic Program who have spent over 30 days in Antarctica.

Lazzara Ledge, Victoria Land, Antarctica: 77° 22' 35" South Latitude, 160°46'30" East Longitude. A flattopped ridge rising to 1900 meters Northeast of Mount Dragovan in Apocalypse Peaks, Victoria Land. The ledge comprises the central part of the divide between Haselton Glacier and Wreath Valley. Named by USACAN (2005) after Matthew A. Lazzara of the USAP Antarctic Meteorological Research Center field team, who worked in McMurdo Station area and at other Antarctic locations.
